

Cegelec	CEGELEC PURCHASE VISION, MISSION AND POLICY		
Annex PG-07.11	Edition: 03	Date: 15.03.2021	Page 1 of 1

CEGELEC Purchasing **Vision** consists of:

- Being a national reference in excellence in Purchasing and supply management.
- Being a business partner for the rest of the departments of the organization.
- Being a desirable customer for our suppliers.
- Turning the group Purchasing into the most competitive and innovative in the sector.

CEGELEC Purchasing **Mission** of consists of:

- Providing a high level, effective and professional service to the rest of the Departments of the Organization.
- Understanding in depth the needs and dependencies of external supply of the Organization and anticipate them, providing solutions that could meet them efficiently and effectively.
- Guaranteeing the efficiency and effectiveness of the purchasing processes.
- Complying with internal / external regulations and legal directives.
- Performing transparent management both in terms of financial responsibility and provisioning.

CEGELEC **Purchasing Policy** is consistent with the strategic guidelines of the company and the Vinci Group and at the same time is based on the following principles:

- **Operational excellence as usual practice:** Perform in a professional and responsible manner based on excellence as usual practice.
- **The client as centre of the business:** Each contract has as its ultimate goal to procure the productive supply and the efficiency of the supply chain.
- **Innovation as a way of progress:** Encourage and promote the philosophy of continuous improvement both in suppliers and in the Purchasing team, providing the necessary resources to achieve it.
- **Openness to change:** Develop mechanisms that allow us to know the trends and evolution of the market in the different categories of suppliers related to our business environment, in order to adapt quickly and efficiently.
- **Objectivity and transparency:** The selection of suppliers is based on the principles of concurrency, objectivity and professionalism. The Allocations are carried out according to the criteria of need, suitability and quality.
- **People as architects of success:** Our professionals ensure the traceability of the Purchasing process and the requirement of the commitments acquired.
- **Sustainability as a means of permanence over time:** our suppliers must comply with the requirements of the Supplier Code of Ethics, Environmental, Health and Safety Guidelines, Corporate Social Responsibility and respect for Human Rights.

This document is applicable to any person of CEGELEC who intervenes in any of the processes of evaluation, approval, negotiation or contracting of goods and services.
